

Adjustable Fog Cannon Misting Nozzles

Adjustable Fog Cannon Misting Nozzles have the following features:

- The atomization of Adjustable Cannon Fog Misting Nozzles give a filmy feeling
- The flow rate and spray angle of the Adjustable Fog Cannon Misting Nozzles can be adjusted
- The spray distance can reach 30 to 100 meters when connected with air blower
- The coverage area can be adjusted in a small range. When the nozzle reaches the atomization, the water is very fine, and the atomization effect is very good
- The water pressure requirements are relatively low, even tap water pressure can be sprayed
- Easy to install, good water-saving performance
